Protocol - contents

- LibreOffice
- Migration general
- Lessons learned from successful migrations
- Migration, Step by Step

Contents - LibreOffice

- ▼ ODF
- ▼ Free fonts
- ▼ Connectivity features

Contents - Migration general

- ▼ Integral part
- ▼ Can be complex
- ▼ Opportunity for improvements / clean up

Contents - Lessons learned

- ▼ Feature set is OK, so ...
- ▼ Planning migration & training
 - ▼ users can start right away
 - ▼ good first experience
- ▼ Resistance to change must be handled 

 Reading "A low trust in the organization's, management's or personal capability to competently manage the change"
Might be possible to write that
in a more neutral way

Contents - Migration, Step by Step

- ▼ Communicating the change
 - ▼ strategic move for the organization
- ▼ Starting the migration process 
 - ▼ Documents, Tools 
- ▼ Switching to open document standards
- ▼ Identifying "technology leaders" within the organization
 - ▼ key-users
 - ▼ different layers
- ▼ Providing training and support

 "it is possible to start the process by implementing an impact test"
Yes, after first assesment and start with communcation (plan)

 Add "Workflow"
